When can I swim after the hair transplant surgery?

General Questions · https://gethair.co.uk/faqs/can-i-swim-after-hair-transplant/

You can start swimming one month after your hair transplant operation.

There are many reasons for this some of which are;

- To prevent infection especially for swimmers using pools
- To prevent being exposed to strong sun light
- To prevent salty water damaging the hair
- To prevent shark attacks (not really but you got the point!)
