How long will I keep my transplanted hair?

General Questions · https://gethair.co.uk/faqs/how-long-will-i-keep-my-transplanted-hair/

The hairs we implant comes from your “**Safe Zone**” donor region, which is resistant to DHT, therefore they do not fall off again once implanted.*

*In some very rare instances hair taken from donor region isn't as resistant as expected. Unfortunately, in these cases even the hair transplant hairs might fall off.
