Will I ever have to come back for a second hair transplant procedure?

General Questions · https://gethair.co.uk/faqs/will-i-need-another-hair-transplant/

Every case is unique and individual results vary. There are several reasons why a patient would visit us again;

* Patient has lost majority of the hair on top and require over 4000 Grafts which we can not achieve in a single surgery.
* Patient is still young and may lose more native hairs in future.
* Patient desires a higher density than we can provide in a single session.
* Patient is not satisfied with the result, which is very rare.
